

Name: Sarah Mueller

EID: SNM2567

Please answer (in complete sentences) the following questions and submit in pdf format on Git.

1. How many hours per week do you anticipate working for EE306 this semester?

I plan on spending 7-8 hours a week on EE306.

2. What is your goal for this course?

My goal for this course is to deepen my understanding of computing and help with my major.

3. Write a few sentences about your favorite teacher. Why was he/she your favorite?

My favorite teacher was actually my English III AP teacher. She made me enjoy writing, which I never thought to be possible. She also pushed me to be a well-rounded student and was always there for extra support.

4. List at least three ways in which we (instructor, TAs) can help you with your course

work. - one way to help with course work is to let us know well in advance what is coming up. (which y'all have done well so far.)

- another way to help, is to understand this isn't the only class I'm in and I'll have to divide my attention in multiple directions.

- other than that it lays on me to go to office hours + ask

5. Write a few sentences about a challenge you faced in high school and describe what helped you overcome this challenge.

When I was in high school I really lacked confidence. I was scared to try new things and never thought I could do it. However, I was in band, an activity, that you really can't be timid in, and the people around me really pushed me and helped me overcome my insecurities. I eventually became the President of the band.
